

PAKISTAN CABLES BOOSTS RENEWABLE ENERGY COMMITMENT, EXPANDS SOLAR CAPACITY TO 2.3MW AT NEW NOORIABAD FACILITY

Pakistan Cables, the premiere wires and cables manufacturer, today announced the successful completion of a significant 300 kW expansion of its existing on-grid solar power plant at its new factory located in Nooriabad, Sindh. This expansion brings the company's total solar power capacity to an estimated 2.3MW. This strategic move reinforces Pakistan Cables' unwavering commitment to renewable energy sources, particularly solar, aligning seamlessly with broader national efforts to mitigate energy shortages and reduce reliance on fossil fuels across its operations. The expanded solar capacity is estimated to reduce carbon emissions by 1,956 tons annually, equivalent to planting approximately 100,000 trees.

Pakistan Cables is the industry leader in introducing sustainable business practices. It is also the first and only wires and cable manufacturer in Pakistan to have its scientific carbon emission targets validated by SBTi and remains committed advocating climate action for a brighter future.

About Pakistan Cables Ltd.

Founded in 1953, Pakistan Cables is the premiere and most reputable wires and cable manufacturer in Pakistan. Being the only wires and cable manufacturer listed on the PSX since 1955, it has the largest geographical footprint in Pakistan with presence in over 200 cities.
