

Pakistan Cables partners with Legal Aid Society to advance legal awareness and women's empowerment

Pakistan Cables Ltd. signed a Project Agreement with the Legal Aid Society (LAS) to conduct legal awareness and capacity-building sessions for the female staff of the Company.

This collaboration aims to foster an inclusive workplace culture by educating employees on legal frameworks that protect and empower women. The initiative leverages the expertise of LAS to move beyond awareness and promote practical understanding of rights, justice, and dispute resolution.

Training fees will be channeled as a corporate donation to support LAS's community legal clinics for marginalized women, extending the impact of the partnership beyond the workplace and into the wider community.

Pakistan Cables remains committed to promoting inclusion, wellbeing, and responsible corporate citizenship, while continuing to support initiatives that contribute meaningfully to people and communities in Pakistan.

About Legal Aid Society:

Founded in 2013, the Legal Aid Society (LAS) is a leading legal empowerment organization in Pakistan, working to expand access to justice and promote rights awareness for underserved communities, particularly across Sindh. LAS delivers an integrated model combining legal awareness, free legal support, and institutional engagement through partnerships with government, private sector, and community stakeholders. Operating through community-based interventions and technology-enabled platforms such as SLACC and NAZ Assist, LAS has reached over 87 million people, responded to 550,000+ legal queries, and supported over 3,000 cases nationwide. LAS is an ISO 9001:2015 certified organization and ensures ethical, transparent, and Shariah-compliant practices across its programs, positioning it as a trusted partner for inclusive and responsible corporate engagement.
